(b) Use the scatter graph to predict the number of ice creams sold on a day when the temperature at midday was

    (i)   22°C

                                                                                       (b)(i) .... **[1]**

    (ii)   28°C.

                                                                                       (ii) .... **[1]**

    (iii) Explain which of these two predictions is more reliable.

    ....

    ....

    .... **[2]**

(c) A newspaper headline reads

    High temperatures make more people buy ice cream!

Does the graph above prove this claim?
Give a reason for your decision.
